WORKING EXPERIENCE

Fullstack developer Intern

MwSpace LLC | jul 2021 oct 2021/ lug 2022 - dec 2022

- While I held the role of Fullstack Developer, I was in fact responsible for the order, personally following the customer.
- I developed from scratch websites (showcase or e-commerce) for medium/small local realities using Laravel and when necessary React.
- I built an admin panel for e-commerce

Backend developer

K-Kasas | apr 2021- giu 2021

- As backend developer I was responsible for implementing new features being careful not to regress the software
- I fixed some existing features by fixing bugs and refactoring the code where necessary.
- I've implemented an Observer-Observable pattern to handle changes made to form fields dynamically.

WhatsAPI

ProPonte | giu 2022 - presente

- As a member of the team, it was my task to design and prototype from scratch a home automation beehive capable of monitoring the state of the surrounding environment and publishing this data in real time via telegram, sending alerts to beekeepers in case of need.

EDUCATION

ITTS A.Volta PG

Diploma of Technical Institute in Computer Science
Sept 2018 - present

Study of the C language, the fundamental web languages (HTML, CSS, JS and PHP), fundamentals of systems and networks and concurrent programming in Java.

LANGUAGES

- Italiano | Madrelingua
- Inglese | B2
